

## HatiCon Product Warranty

The HatiCon GmbH (in the following HatiCon) places highest requirements on the quality of its products. These are manufactured considering highest quality requirements. For this reason we can grant our customers for the following warranty:

HatiCon warrants to the original purchaser ("Purchaser") of product(s) that it manufactures ("Product") that the Product shall be free from defects in material and workmanship for a period of ten (10) years, from the date after the purchase of the Product by the original Purchaser. This Warranty does not cover damage to the Product that occurs during its shipment, storage, or installation.

This Warranty shall be VOID if installation of the Product is not performed in accordance with HatiCon's written installation instructions, or if the Product has been modified, repaired, or reworked in a manner not previously authorized by HatiCon IN WRITING, or if the Product is installed in an environment for which it was not designed.

HatiCon shall not be liable for consequential, contingent or incidental damages arising out of the use of the Product by the Purchaser under any circumstances.

If within the specified Warranty period the Product shall be reasonably proven to be defective, then HatiCon shall repair or replace the defective Product, or any part thereof, in HatiCon's sole discretion.

Such repair or replacement shall completely satisfy and discharge all of HatiCon's liability with respect to this limited Warranty. Under no circumstances shall HatiCon be liable for special, indirect or consequential damages arising out of or related to use by Purchaser of the Product.

Manufacturers of related items, such as PV modules and flashings, may provide written warranties of their own.

HatiCon's limited Warranty covers only its Product, and not any related items.

HatiCon extends its warranty without any additional charge until a maximum of 25 years under the condition of yearly inspections of the PV-installations (service & maintenance contract with a specialized company, periodic service and maintenance reports).
